<p>At 275 points the Prometheus is everything a CoA commander would want: brutal and solidly built! The model has the choice of a built-in Disruption Generator or Shield Generator.</p> <ul style="list-style-type: none"> <li>• 1 x model supplied</li> <li>• 1 x laminated stat card</li> <li>• Supplied unpainted and unassembled</li> </ul>			
DWCA12	Covenant Of Antarctica Callimachus Time Dilation Orb (1)	<b>\$24.99</b>	 <p>www.spartangames.co.uk  <b>DYSTOPIAN WARS</b>            Covenant of Antarctica            1 x Callimachus Time Dilation Orb            1 x Laminated Stat Card            1 x Acrylic Base</p>
<p>Lord Leonidas, Chief of Physics for the CoA, made an exciting discovery deep inside Wells Chasm during one of the mining operations intended to open up blocked corridors. In a room that was clearly scientific in nature, Leonidas discovered a vitriolic fluid that, when agitated with a powerful charge of energy, could literally impact time and, when the charge is powerful enough, also transport (teleport) objects. The device was named Callimachus, after the favourite Greek poet of Leonidas, and fitted into a modular mobile unit. Whilst the Orb has no offensive design (although military upgrades are under development), the disruption it can cause on a battlefield is what makes it popular with CoA commanders.</p> <ul style="list-style-type: none"> <li>• 1 x model supplied</li> <li>• 1 x laminated stat card</li> <li>• Supplied unpainted and unassembled</li> </ul>

<p>The Washington Class Land Ship is one of very few aquatic tanks having been developed by the FSA to support amphibious landings. Its dual use and potent firepower make it a dangerous asset on the battlefield, while the high profile of its headquarters makes it a rallying point on the battlefield.</p> <ul style="list-style-type: none"> <li>• 1 x model supplied (note: this is the naval waterlined version of the model)</li> <li>• 1 x laminated stat card</li> <li>• Supplied unpainted and unassembled</li> </ul>
