Privateer Press April 2012 Releases

Cygnar Minuteman Light Warjack (white metal)

MSRP \$23.99 PIP 31075

The Minuteman is a product of numerous advances in mechanical warfare. Utilizing an exactly designed series of compression chambers, the warjack can launch itself short distances by venting its heartfire through a special propulsion system. It is well suited to annihilating entire swathes of infantry with its short-range grenade launchers upon landing, clearing its line of sight to an intended target. The Minuteman can then unload its dual slug guns into harder targets.

The Minuteman light warjack comes in a blister (PIP 31075). A player may field any number of Minuteman light warjacks in a Cygnar army.

Protectorate of Menoth Knights Exemplar Unit (plastic)

MSRP \$34.99 PIP 32082

However, the models in PIP 32082 are a new sculpt and therefore look different from the models in PIP 32017. In addition, these models are plastic rather than metal. The replaced PIP will

no longer be available from Privateer Press beginning April 1, 2012.

Armed with blessed crossbows capable of piercing even arcane wards, Exemplar Errants act as the hand of Menoth sent forth to strike at enemies abroad. With passages from the Canon of the True Law inscribed upon their shields, these dedicated knights devote themselves fully to the Protectorate's holy crusades. Each is more than willing to sacrifice his own life to allow one of his brothers to fight on in Menoth's name.

The Exemplar Errant unit comes in a box (PIP 32088). A player may field up to three Exemplar Errant units for each warcaster in a Protectorate of Menoth army.

Khador Man-O-War Drakhun Dragoon Cavalry Solo (plastic and white metal)

MSRP \$44.99 PIP 33097

Only the most powerful Man-O-War soldiers—gifted with uhlan blood and born and raised in the saddle—may petition to become drakhuns. Each one trains his powerful Karpathan destrier to be as much a weapon as the mechanical axe and cannon he bears into battle. Uniting the ancient traditions of uhlan heroes with the armor of the Man-O-War, the drakhun is a mechanical force of destruction able to fight even if his mount should fall.

The Man-O-War Drakhun dragoon solo comes in a box (PIP 33097). A player may field one Man-O-War Drakhun dragoon solo for each warcaster in a Khador army.

SPECIAL NOTE: PIP 33097 contains the same Mk II stat card as PIP 33045. The model in PIP 33097 is the same model as is in PIP 33045 and includes a dismounted Drakhun. The replaced

PIP will no longer be available from Privateer Press beginning April 1, 2012.

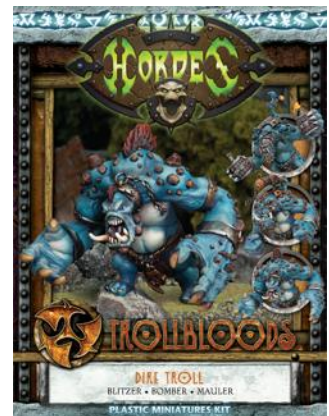

Trollblood Blitzer/Bomber/Mauler Dire Troll Heavy Warbeast (plastic)

MSRP \$34.99 PIP 71058

Although dangerous and unpredictable, the powerful dire trolls serve their trollkin allies in a variety of battlefield roles. The dire troll mauler is a creature of savage simplicity, devastating enemies with nothing more than its gigantic fists and unearthly strength. The dire troll blitzer totes a rapid-fire slugger cannon and its pyg gunner into combat on its back, adding a lethal spray of lead to the crushing blows of its mighty fists. The dire troll bomber hurls barrels of explosives at the enemy before pulverizing them in melee combat.

This box set contains three color stat cards and one multi-part heavy warbeast plastic model (PIP 71058). Included are all the components to assemble one of three heavy warbeast variants: Blitzer, Bomber, or Mauler. A player may field any number of these heavy warbeasts in a Trollblood army.

SPECIAL NOTE: PIP 71058 contains the same Mk II stat cards as PIP 71007, PIP 71008 and PIP 71046. The model in this box represents the same figures as PIP 71007, 71008, or 71046 in the game. However, the model in PIP 71058 is a new sculpt and therefore looks different from the model found in PIP 71007 and 71008. In addition, this model is plastic rather than metal. The replaced PIPs will no longer be available from Privateer Press beginning April 1, 2012.

Trollblood Rök Heavy Warbeast Dire Troll Character Upgrade Kit MSRP \$15.99

PIP 71062

When a remote mountain village is found in ruins with its taverns plundered, northerners speak fearfully of the dire troll called Rök. Although insatiable as any dire troll, over a century ago Rök developed a unique craving for beer and liquor of all sorts, and his raids of villages for their intoxicating spirits have since become legendary.

When he was sought out by Borke Kegslayer, Rök engaged the trollkin in an exhausting battle lasting several hours. After this, Kegslayer shared his own potent brew, convincing the ferocious troll they were kindred souls. When Borke left, Rök followed, knowing that greater fights and rivers of beer awaited them.

The Rök heavy warbeast dire troll character upgrade kit comes in a blister (PIP 71062). The Rök character upgrade kit is NOT a complete model. Players will need a Trollblood Blitzer/Bomber/Mauler Dire Troll Heavy Warbeast (PIP 71058) in addition to this kit. A player may field one Rök in a Trollblood army.

Circle Orboros Tharn Bloodtrackers Unit (repackage) (white metal)

MSRP \$54.99 PIP 72071

No less savage than other Tharn, the female bloodtrackers stalk their prey from the cover of forests and slay them with a hail of barbed spears. Like living incarnations of the hunt itself, these savage killers move unseen and strike their chosen targets with incredible power.

The Tharn Bloodtracker unit comes in a box (PIP 72071). A player may field one Tharn Bloodtracker unit for each warlock in a Circle Orboros army.

SPECIAL NOTE: PIP 72071 contains the same Mk II stat card as PIP 72013. The models in PIP 72071 are the same models as are in PIP 72013 and 72014 and replace those older PIPs by offering their contents in a complete unit. The replaced PIPs will no longer be available from Privateer Press after April 1, 2012.

Minion Swamp Horror Heavy Warbeast (white metal)

MSRP \$27.99 PIP 75039

Few men have survived an encounter with the swamp horrors that lurk in the marshlands. Survivors speak of great beasts rising from the swamp in a flurry of tentacles and seizing entire hunting parties in their slimy grip. Once ensnared, a swamp horror's victims can only struggle futilely as they are pulled into its bone-crushing maw. Only the very strongest gatorman bokors and shamans can hope to control these primal beasts, so taming one is viewed as a show of great power.

The Swamp Horror heavy warbeast comes in a blister (PIP 75039). A player may field any number of Swamp Horrors with a Gatorman warlock.

Formula P3 Paint: Retribution of Scyrah Colors

MSRP \$17.99 PIP 93115

Morrow White and Underbelly Blue serve as the perfect basecoat for the ubiquitous white equipment of Retribution armies, and Arcane Blue creates the distinctive glowing runes on Iosan armor and myrmidons.

The Formula P3 Retribution of Scyrah Colors comes in a box (PIP 93115) and includes six Formula P3 acrylic paint colors: Ryn Flesh, Underbelly Blue, Arcane Blue, Morrow White, Cryx Bane Highlight, and Traitor Green.
